SUMMARY

A Computer Engineer with a strong foundation in full-stack web development, cloud computing, and hardware-software systems. Proficient in building scalable, user-friendly applications using **JavaScript, React.js, Next.js, and Laravel**. Experienced in leveraging cloud infrastructure, while demonstrating technical proficiency in **embedded systems and networking roles**. Passionate about bridges between software development and systems engineering to deliver innovative, end-to-end technical solutions.

PROFESSIONAL EXPERIENCE

RESEARCH AND DEVELOPMENT INTERN *Xeleqt Technology Innovations Inc.*

June 2025 - July 2025

- Assisted the R&D team in hardware prototyping and electronic system development.
- Uploaded and configured firmware on microcontrollers and embedded chips to enable device operation.
- Tested and validated electronic components to ensure proper integration between hardware and embedded software.

FREELANCE FULL STACK DEVELOPER

December 2025 - April 2026

- Engineered a production-grade e-commerce marketplace using React.js for a dynamic frontend and Node.js/Express for a robust, scalable API.
- Deployed a fully containerized architecture using Docker and AWS ECS, utilizing PostgreSQL with optimized indexing to handle high-frequency concurrent transaction data.
- Integrated Stripe API for secure, multi-currency payment processing and implemented automated webhooks to streamline order fulfillment and real-time shipping tracking.

EDUCATION

Cebu Institute of Technology- University

May 2026

Bachelor of Science in Computer Engineering - Cum Laude

- Former Vice President-External and Head of External Affairs (ICpEP.SE CIT-U)*

PROJECT EXPERIENCE

DISMAP

- Developed a disease monitoring system with a Laravel (PHP) web backend and Flutter mobile application.
- Built APIs and database logic for managing and tracking disease reports.
- Implemented responsive web interfaces using Blade templating.
- Integrated the mobile app with backend services for real-time data synchronization.

FURWELL

- Designed and developed UI/UX layouts focused on user-friendly interaction and accessibility.
- Built and maintained responsive front-end features using React and Firebase.
- Designed, developed, and trained an AI-powered chatbot to respond intelligently to user inquiries, improving engagement and support.
- Contributed to backend logic for stability, security, and performance optimization.

SWIFTSAIL FERRIES

- Designed a responsive, ferry booking platform focused on streamlined user journeys and real-time updates.
- Developed full stack systems with React for the front-end and Firebase for back-end services.
- Built an intelligent AI chatbot to guide users through ferry schedules, fare queries, and FAQs.
- Created interactive UI components optimized for both mobile and desktop devices.

SKILLS AND CERTIFICATIONS

Languages/Libraries: C, C++, C#, JavaScript, TypeScript, Python, Java, PHP, HTML5, CSS3, SQL, React.js, Next.js, Angular, Node.js, Express.js, Laravel, Tailwind CSS, Sass, Flutter

Databases/Tools: SSQL, Firebase, Microsoft Access, MongoDB, Supabase, Git, GitHub, SourceTree, Visual Studio 2022, Visual Studio Code, AWS, Docker, Figma, WordPress, Flutter, Android Studio, Lovable, Claude AI, ChatGPT, Cursor AI

Certificates: React Foundations for Next.js, Next.js App Router Fundamentals, Next.js SEO Fundamentals

Soft Skills: Critical Thinking; Adaptability; Collaborative Communication; Team Player; Organizational Skills; Problem Solver; Attention to Detail; Strategic Planning
